Place / node: \_\_\_\_\_ Date: \_\_\_\_\_

Month: \_\_\_\_\_ Reviewed by: \_\_\_\_\_

A simple monthly reading for stewards, schools, and local field teams. Read the place, the people, and the coordination separately. Then decide the next 30 days clearly.

**Monthly use:** Read three things separately: **place, people,** and **coordination.**

**End point:** Decide the next 30 days clearly.

**A**  
**Place and ecology**

**Is the place becoming more alive, protected, and stable?**

- water behaviour
- plant vitality
- signs of life
- whether planned care happened

**B**

**Coordination and governance**

**Are roles, agreements, and next steps clear enough to proceed?**

**Important rule**

Do not force green. Yellow or red is not failure. It is useful honesty.

**Green** may justify a small next step.  
**Yellow** usually calls for adjustment.  
**Red** calls for protection, pause, or repair.

**Next 30 days**

**What will happen next?**

---

**Who is responsible?**

---

**What must not be started yet?**

**Next review date**

**Remember:** Read the place. Read the people. Read the coordination. Then decide the next 30 days clearly.

- add mulch
- repair water access
- pause expansion
- plant next pixel zone
- invite one new person
- start next school cycle
