

Governance / Decision Log

For larger or more complex nodes. Log decisions, roles, and changes as they happen. Keep this durable. It is the memory of the field.

Place / node: _____ Period: _____

Held by: _____ Version: _____

Log each significant decision as it is made — not after the fact. Keep entries short and traceable.

Rule: Separate money, purpose, and decision-making at all times.

ENTRY 1

Date: _____

Decision or change

Reason

Who was involved

Stream

A — Land B — Steward C — Governance

Next review date

ENTRY 2

Date: _____

Decision or change

Reason

Who was involved

Stream

A — Land B — Steward C — Governance

Next review date

ENTRY 3

Date: _____

Decision or change

Reason

Who was involved

Stream

A — Land B — Steward C — Governance

Next review date

The three-stream rule: Land currency (Elir) cannot convert to personal wealth. Personal support (Elia) cannot leverage land control. Group funds cannot accumulate as power. Each stream has its own membrane — keep them separate in every entry.
